For Immediate Release

“Sport Fields to Open April 26”

Prince George, BC- Due to a mild winter and an early start to the spring season, it is anticipated that School District #57 and City of Prince George sports fields will be available for use on April 26th. This date is subject to weather and does not include the areas in the Hart Highway where delays are expected by up to two weeks.

The City reminds all users to remain off sport fields until they are officially open. Turf can easily be damaged when used in extreme cool or wet conditions. Although the snow has melted, sports fields still need time to recover allowing the turf roots to establish, ensuring that turf can withstand rigorous use and is safe for all participants for the duration of the season.

Groups requiring an outdoor pre-season practice area can contact the City of Prince George, Community Services Department, to make arrangements to use alternative spaces in lower impacted areas.
